Qulin Elementary Welcomes First - Fourth Grade Students New to Twin Rivers

CLASS NEWS

Kindergarten

Lisa Bell - Hayley Benson

Some things parents can review with your children next quarter are: sight words, number recognition, counting, alphabet recognition, and letter sounds. Our class recently enjoyed Hero Day.

Please look at your child's folder every night.

1st Grade

Amy Morse - Bridget Patterson

Next quarter parents can help your child by reading with him/her every evening. Review 1st Quarter sight words and learn the new 2nd quarter words. Practice addition and subtraction facts.

Our class has worked hard to meet 1st quarter A.R. goals. We enjoyed visiting with the firemen, emergency technicians, and police officers who visited on September 11.

We will continue to work with addition and subtraction facts and strategies. We will be studying our national symbols in social studies. We will begin unit 2 in our reading series 2nd quarter.

Thank you for all you do at home to assist your child.

2nd Grade

Cortney Barnett-Jordan Matthews

Parents please read nightly with your child. Practice Kick-It Math facts. Practice spelling words and words that

apply the weekly spelling with your kids.

Our second graders have started their year off with a bang. We are settling into 2nd grade and our class routines and expectations. The students are on fire reading and taking A.R. tests.

Our classes had a blast with Hero Day. The kids have enjoyed two family day lunches and getting to work on service projects.

We are looking forward to learning lower case cursive. We will also do a Native American Project and Christmas Around the World. Watch for an announcement about our family night coming up 2nd quarter. We hope to see everyone there.

3rd Grade

Casie Fordham - Jessica Kirkman

Our class recently studied a unit on weather. Students constructed disaster kits for our building as a final project. They also did a great job creating volcanoes and displaying them. The class has been learning to read and dissect informational text.

We have enjoyed Hero Day, Family Groups and projects with school families this quarter. Coming up next quarter will be Pumpkin Projects, Thanksgiving Tasting Party, Grinch Day, a school cookie dough fundraiser, and a Christmas movie trip.

We will be working on multiplication next quarter, so please study math facts at home and also read and work on pumpkin projects.

4th Grade

Sue Lamarr - Teresa Rose

Second Quarter please study those multiplication facts and spelling words at home. Ask your child about math and math homework daily. Our math will be getting a little harder, when we begin double digit multiplication and start division.

Our students are to be commended on good behavior this last quarter. They have been getting some great praise from special class teachers.

We enjoyed having Hero Day and listening to our local fireman, police and emergency personnel. We are looking forward to our School Families service projects each month. Ask you students about those projects! We gave special treat bags to the Hero who visited our class and others. We had a great turn out for Parent/Teacher Conference. Thank you to all who attended.

GET INVOLVED!

- Attend school events to show your interest in your child's activities. There will be many opportunities: parent/teacher conferences, family nights, sports events, art, music, drama, and science programs and many more. These provide a great opportunity to connect with other parents and get to know your child's classmates.
- Join or volunteer to help PTO.
- Sign up for Parent Portal to stay up to date on happenings at school and your child's class grades. Visit the schools website and Facebook pages. Find out if your child's teacher has an app to facilitate communication between teacher and parent.
- Check your child's backpack for information sent home and homework.
- Utilize the Reading Connection, Math & Science Connection, and Home & School Connection to engage your child in learning activities at home

Your involvement in your child's education is a valuable part of his/her success!
